

PowerShell Training  
Three Winter Institute sessions on PowerShell scripting were organized by MCNC and held in Morganton and Research Triangle Park.

BCDR Plan Tested  
In 2016, MCNC senior leadership approved a Business Continuity / Disaster Recovery (BCDR) plan. In January, the plan was tested.

MCNC at #WMM17  
MCNC joined other Research and Education Networks throughout the country in February for The Quilt's 2017 Winter Member Meeting.

Listening Tour  
Client Network Engineering and Security teams attended all eight regional meetings of K-12 technology directors in Nov-Dec to discuss DDoS protection capabilities.

FIM Milestone  
Two Local Education Agencies (LEAs) and one Community College have become the first K-14 North Carolina institutions to join the InCommon Steward Program.

Website Upgrades  
The MCNC website is a valuable tool for you to connect with us. Upgrades to our website are currently in progress, and we hope you will like the finished product.

Staff Spotlight  
MCNC Senior CNE John Warf has received the coveted *Making IT Happen Award* for his contributions to the successful integration of technology in education.

Open House  
Plans are underway for a community-wide Open House at our RTP campus on May 12 from 10 a.m. to 2 p.m. Click or tap the image above for more information.

WILMA Project  
MCNC recently worked with several other Research and Education Networks and the Quello Center to develop the Wireless Innovation for Last Mile Access report.
